## Mobile Elevated Work Platform (MEWP)

### In our courses we review

- Equipment-related topics
- Fall protection (aerial lifts only)
- Responsibilities
- Safe operation
- Inspections
- Function tests
- Workplace-related topics
- Requirements of the relevant ANSI standards

### Covered (MEWP) standards:

- CSA B354.7, B354.8
- Energy safety Canada requirements (upon request)
- Provincial requirements

### Training offered:

- Operator
- Train-the-trainer

### Delivery methods:

- In-person instructor-led
- Virtual instructor-led
- Computer based

## Forklift Course

### In our courses we review

- Equipment-related topics
- Operating instructions and precautions
- Differences from automobile
- Controls and instrumentation visibility
- Equipment capacity and stability
- Load charts (reach forklifts)
- Operating limitations
- Workplace-related topics
- Surface conditions
- Pedestrian traffic
- Overhead obstructions and high voltage conductors
- Operating on ramps and sloped surfaces

### Covered powered industrial truck standards:

- CSA B.335 and provincial requirements

### Training offered:

- Operator
- Train-the-trainer

### Courses/classifications:

- (Class 1,4,5) Electric and/or internal combustion engine sit down forklift
- (Class 2) Stand up narrow aisle forklift
- (Class 3) Electric pallet jack
- (Class 6) Ground support equipment
- (Class 7) Rough terrain forklift

### Delivery methods:

- In-person instructor-led
- Virtual instructor-led
- Computer based (certain classifications)

## Other Courses

- Skid steer
- Mini excavator
- Fall protection
- Bucket truck
- Ground support equipment
- Utility vehicle (UTV)
- OSHA 10 and 30
- Various other offerings

## Mobile Elevated Work Platforms (MEWP)

as required by ANSI/SAIA, and CSA

### Mobile Elevating Work Platforms

- Operator certification
- Supervisor certification
- 1A, 1B, 3A, 3B
- ANSI A92, and CSA B354
- In-person, virtual, or computer based training
- Train-the-trainer available

### Bucket Truck

- Operator certification
- Supervisor certification
- Bucket truck
- ANSI A92
- In-person or virtual training

## Powered Industrial Trucks (Forklifts)

as required by ANSI, and CSA

### Rough Terrain Forklifts

- Class 7 Powered industrial truck
- Telehandler or straight mast
- ANSI B56.6, and CSA B335
- In-person, virtual, or computer based training
- Train-the-trainer available

### Warehouse Forklifts

- Class 1, 4, 5 powered industrial trucks
- Electric or internal combustion engine
- ANSI B56.1, and CSA B335
- In-person or virtual training
- Train-the-trainer available

### Narrow Aisle Forklifts or Electric Pallet Jacks

- Class 2 and 3 Powered industrial trucks
- ANSI B56.1, and CSAB335
- In-person or virtual training
- Train-the-trainer available

### Rotating Telehandlers

- Class 7 Powered industrial trucks
- Specialized training
- ANSI B56.1, and CSA B335
- In-person training only

## Earthmoving Equipment

as required by provincial standards

- Skid steer
- Wheel loader
- Mini excavator
- Operator training
- Covers provincial standards
- In-person or virtual training
- Train-the-trainer available

## Fall Protection Training

- Fall protection essentials (4 hrs)
- Fall protection comprehensive (8 hrs)
- Ontario working at heights (8 hrs)
- Energy safety Canada fall protection (8 hrs)
