NextGen

Mobile Access Control (M.A.C.)

Expanded Options. Further Governance.

Take control and stay informed wherever the job takes you.

With Herc Rentals' Mobile Access Control (M.A.C.) you decide who can use your rented gear, when they can use it, and how often. Herc Rentals' revolutionary Mobile Access Control gives job site managers, contractors, and equipment operators exactly what they have been asking for — more control. Assign operators, set duration periods by user, track gear usage and allow for multi-contractor billing.

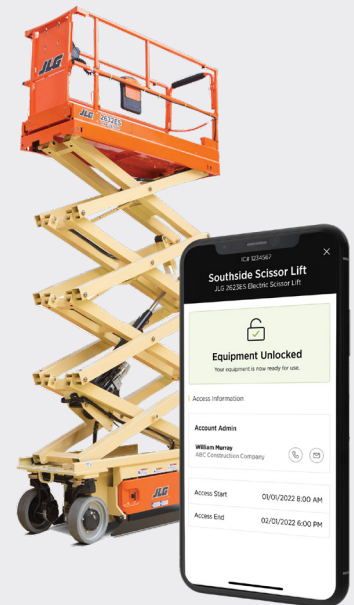

Equipment Operators

- Unlock nearby equipment using your mobile device
- Uses Bluetooth technology
- Doesn't rely on Wi-Fi or cellular service; works in rural or no-service areas

Account Administrators

- Set up and manage users
- Create single and group assignments
- Set up access duration periods by operator
- Bill multi-contractor jobsites

By using Herc Rentals Mobile Access Control, you'll no longer have to worry about Wi-Fi connectivity.

Even on the most remote job sites, connectivity won't be a concern with Mobile Access Control. Using the Herc Rentals app, you can automatically locate and then unlock assigned equipment within Bluetooth range of your device.

With Herc Rentals' Mobile Access Control, multi-user billing is a breeze.

Managers can get an up-to-the-minute snapshot of how frequently specific gear is being used and by whom, making it easier for you to see who owes what on each piece of equipment you are renting.
