Setting You Up for Success

Because one Herc Rentals account unlocks our fleet and network, we start every relationship the right way.

- CLEAR helps confirm it's really you creating or accessing your account.
- With CLEAR verification, your personal information is handled securely. CLEAR only shares what's needed to complete verification and always with your consent.
- Without CLEAR, it's harder to keep your account protected from unauthorized use.

"We hear it a lot: 'Once the account was set up right, everything else just worked."
